## INTRODUCTION

Thank you for taking the time to review my resume. I've captured and edited many different kinds of media, from photos to videos to films, using mainly my Sony a6000 and Adobe Suite on my self-built PC. My experience comes from being on film sets, working with DSLR cameras, and creating media for almost a decade. Producers, co-workers, and clients have said that I'm a positive, humorous, hardworking, and enjoyable person to collaborate with. I have a Bachelor's in Film from Cal Poly Humboldt (Cum Laude) and an Associate's in Humanities from Santa Rosa Junior College (Highest Honors).

Thank you for considering me, and please reach out with any questions or concerns.
